MEMORANDUM FOR: Executive Assistant to the Deputy Director (Support)

SUBJECT: Rescission of [REDACTED]

25X1A

1. We have reviewed CIA [REDACTED] dated 5 November 1951, and find the following paragraphs are technically still in effect:

25X1A

a. Paragraph 1A(2) regarding adherence to the provisions of the Classification Act of 1949 from which the Agency is exempted.

b. Paragraph 1B, Procurement Contracts (except subparagraphs 4(a), (b), and (c) regarding regular and reserve officers of the armed forces) regarding recruitment policies and procedures.

2. These provisions are so obsolete (for example, the discontinued requirement for obtaining a statement of release from another Government agency) or so well established (for example, the requirement for obtaining approval of the Director of Central Intelligence for use of a PL 53 slot) that we see no useful purpose served by retaining them on the books. More importantly, the statement in paragraph 1A(2) regarding the application of provisions of the Classification Act of 1949, as amended, to Agency position classification processes and pay administration does not accurately reflect our current practices and is subject to misinterpretation.

3. It is therefore requested that these paragraphs be rescinded promptly with the understanding that any of the material which has current application and is appropriately contained in a regulation (as opposed to essentially procedural information) will be incorporated in appropriate regulations in our new series.
